Developer of  
ExhibitOffice + ManagEvent

## Projects - General Tab

This is where the more information about the Project is stored

Project Contacts: Other client contacts besides the billing client that was listed in the Detail Tab

Project Address: This is used if there is not an Exhibition or an Event associated with the project, for example it might be a shopfit out.

Project Milestones: They can be listed here

Key People: This is staff members and their roles

The screenshot displays the 'General' tab of the ExhibitOffice software. The interface is organized into several sections:

- Project Address:** Fields for Address 1 (Darling Drive), Address 2, City (Darling Harbour), State (NSW), ZIP, and Country.
- Key People:** Fields for Salesperson (Chris Lamb), Project Co-ordinator (Chris Lamb), Supervisor (Chris Lamb), and Designer.
- Project Contacts:** A table with columns for Name, Role, and Active. It lists Mike Quaife (Client), Diane Quaife, and Paula Bain.
- Project Milestones:** A table with columns for Date, Event, and Status.

The status bar at the bottom indicates the record is 3 of 11, with a total of 26 records. The software version is ExhibitOffice - Chris Lamb.

Also from this screen you are able to navigate to other tabs, the default one here is the "Info" tab as shown. You can also navigate to "Costings" "Stock" ... Etc
