

# Project\_Database Co

Developer of

Exhibit\_Office + Event\_Office + Contractor\_Office

## Welcome to the Manual

### **Administrator**

If you are an Administrator responsible for installing up the Database then go to Technical Stuff for installation instructions or Setting It Up for user preferences and basic settings

### **User**

Can't wait to get started then go to Using it Simple Stuff

### **User**

Want to learn more about what it can do go to using it Advanced Stuff

### **Advanced Functions**

For those that really want to use it to the full extent of its capabilities go to Other Stuff

### **Training**

We can run webinar training sessions as required where we can show clients over the internet how to do various functions, send an email to request this.

The online version of the manual is a combination of documents and video tutorials. Most of the functions of the database are explained in these. If there is something that is not or that you find confusing please notify us as we are committed to improve the product.
